DETAILED ACTION

Allowable Subject Matter

Claims 1-3 and 5 are allowed.

The following is an examiner's statement of reasons for allowance: an ion beam method of etching a specimen using a grid, the method including a step of *blocking some of the holes in the grid by covering a radial swath of the grid from a center of the grid to a perimeter* such that the ion beam emitted by the gun is prevented from passing through the holes for *improving an etch depth uniformity of a specimen across an entire surface of the specimen*, wherein one of the ion beam gun and a specimen support is *rotating relative to each other*.

Neither of the prior art of the record teaches or suggests an ion beam etching method wherein one of an ion beam gun and specimen support is *rotating relative to each other*, and a step of *blocking some of the holes in a grid by covering a radial swath of the grid from a center of the grid to a perimeter of the grid* for *improving an etch depth uniformity of the specimen*.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Parviz Hassanzadeh whose telephone number is (571)272-1435. The examiner can normally be reached on Tuesday-Friday.
